

Side Quest cards

Every card the rule would have produced on 23 September 2026, for checking before anything is built

These were never sent. Each one is built from the creator’s real position on the 23rd, and the outcome shown is what actually happened by the 30th with no card and no prompting. The coins figure is the existing incentive plus a 10% quest top-up.

Cards	28	to 28 creators across 11 coaches
Worth to LEAP	£3,103	all three TikTok incentives
Of which missed in September	£1,306	11 creators fell short unaided
Coins if every card hits	£670	existing incentives plus top-ups
